<sup>1</sup> Percent change in number of pending sales this year compared to last year. The Current Month section compares April 2022 with April 2021. The Year-To-Date section compares 2022 Year-To-Date statistics through April with 2021 Year-To-Date statistics through April.

<sup>2</sup> % Change is based on a comparison of the rolling average sale price for the last 12 months (5/1/21-4/30/22) with 12 months before (5/1/20-4/30/21).

<sup>3</sup> Total Market Time is the number of days from when a property is listed to when an offer is accepted on that same property. If a property is re-listed within 31 days, Total Market Time continues to accrue; however, it does not include the time that it was off the market.

**AFFORDABILITY** - According to a formula from the National Association of REALTORS®, buying a house in the Portland metro area is affordable for a family earning the median income. A family earning the median income (\$106,550 in 2022, per HUD) can afford 104% of a monthly mortgage payment on a median priced home (\$550,000 in March). The formula assumes that the buyer has a 20% down payment and a 30-year fixed rate of 4.17% (per Freddie Mac).

# MARKET ACTION ADDITION

Some regions have a higher proportion of active residential listings that are not yet under construction (designated as “Proposed”), meaning there are fewer “Active” homes that are ready for an immediate move in.

RMLS is now offering additional statistics that delve more deeply into the inventory counts for the Portland Metro and SW Washington sections of the monthly Market Action report. These statistics are presented as insert pages at the end of each region’s section.

The following summary shows the number of homes available for immediate purchase and occupancy.

## Portland Metro Market Action Addition: April 2022

Total Active Listings* Reported in Market Action:	2,246
Less Listings with Purchase Contingencies*:	25
Readily Purchased Listings:	2,221
Percent of Total Active Listings:	98.9%
Less New Under Construction (not ready for occupancy):	120
Less New Proposed (not started):	49
Total Readily Purchased & Occupied Listing:	2,052
Percent of Total Active Listings:	91.4%
Inventory in Months of Readily Purchased & Occupied Listings:	0.7

\* Active Listings reported in Market Action include three statuses (ACT, BMP, SSP). Two of these statuses are defined as listings with accepted offers that are still marketed as active listings due to the type of offer on the property. These are Bumpable Buyer, which is an offer that is contingent on the sale of the buyer’s current home, and Short Sale Pending, where an offer has been accepted by the seller but the required third party approvals have not been obtained.
