Deployment: May 7, 2018

- Listing Load: Fixed an issue that prevented saving a listing with a Home Energy Score when the form was in abbreviated mode.

Deployment: May 2, 2018

- Showing Time service is integrated into RMLSweb. Subscribers may schedule showings for a listing from inside RMLSweb, eliminating the phone tag that can slow down the process of securing a property showing.
- A new status Coming Soon-No Showing (CSN) was released. For details on this status visit: <http://rmlscentral.com/2018/02/01/whats-coming-to-rmlsweb-coming-soon-no-showing-details/>
- 2017 Forms Change was released which includes:
 - Terminology Change: The terms listing agent/office, co-listing agent/office, and selling agent/office are now referred as seller's agent/office, co-seller's agent/office, and buyer's agent/office.
 - Townhouse/Planned Community Requirement Change: For residential listings where property type is attached, townhouse, or planned community AND HOA is no, the Townhouse/Planned Community Supplement will still be available but the required fields will now be unrequired.
 - Listing Contract Addendum Changes: The Listing Contract Addendum (Long) will be split into two new addenda: a Withdrawal Addendum and a Cancellation/Termination Addendum. The Listing Contract Addendum (Short) will be renamed to Listing Contract Addendum. The comparable data section will be removed and headers will be added to better separate the three types of changes: expiration date change, list price change, and miscellaneous change.

- Status Change to POP/PEN – Field Changes: The buyer’s agent/office will only be identified when a listing changes to SLD/SNL status. When a listing changes to PEN/POP status, the unrequired buyer’s agent/office fields will no longer be available.
- Oregon and Washington Listing Contact Changes: The Oregon and Washington Listing Contracts underwent major revisions this year. Sections have been rearranged into a more logical order to facilitate discussions between seller(s) and selling agents. Row numbers were added, the text size was increased, and more space was added to the signature section of each contract. In addition to these layout changes, many sections received language changes as noted in the summary document (see link below). Required Detectors is a section that has been added, and the “list price” portion of the Brokerage Fee section has been broken out into its own section as well.
- Changes to the RMLS™ Rules and Regulations: Language will be added to Section 3.21 of the RMLS™ Rules and Regulations to state that the seller’s broker may provide a code to a specific user with the owner’s permission.

- 2011 Forms Change: Several values have been added to provide additional property description in the Feature, Lot Description and Style fields. Including:
 - Bank Owned Y/N -- This field will be renamed "Bank Owned/REO Y/N". Listings that are bank owned or owned by REO, such as HUD, will need to be marked as "YES".
 - FIRPTA Y/N -- This new required field next to Owner Name will indicate if the owner is a foreign person according to FIRPTA.
 - OR/WA Contracts -- The length and wording of both contracts will change to three pages. New language will be added for the seller to disclose whether they are a "foreign person" within the meaning of the Foreign Investment in Real Property Tax Act (FIRPTA). The Washington listing agreement will be revised to provide the disclosure required by House Bill 2614.
 - Multifamily "Unit Features" Advanced Search -- This new search field will have the ability to look for features across all ten unit features of a given listing.
 - Comparison Report -- We will be adding additional subscriber requested fields to this report such as: cumulative days on market (CDOM), short sales Y/N and original list price.
 - Export Reports -- Some of the fields will change as a result of this release. These changes could cause an import disruption to programs that utilize the RMLSw**eb** Export Reports (such as different 1004MC products). This document shows how the Export Reports will change. If you currently use a product that relies on a macro to run, these will need to be revised.

- Annual Tax Updates: The following counties received full annual tax report updates: Clackamas, Clark, Marion, Washington and Yamhill. Multnomah received a deed update.

Deployment: 4 January 2005

- RMLS™ has disabled the ability for Internet Explorer to auto-fill your Private ID after you type in your Public ID on the RMLS*web* login page. However, if you currently have the auto-fill function set up it will continue to work until you change your Private ID. After you change your Private ID you will no longer be able to use the auto-fill function and will be required to enter your Public and Private IDs manually every time you log in to RMLS*web*. When you change your Private ID Internet Explorer will attempt to auto-populate the Private ID field with your previous password. To keep Internet Explorer from doing this you will need to delete your saved password. Below you will find instructions on how to remove saved auto-fill accounts from the RMLS*web* login page.
- How to delete a saved password on RMLS*web*:
 1. Go to the RMLS*web* login page.
 2. Double-click on the empty public ID field - this will bring up a list of all saved logins for that page.
 3. Then, point your mouse at the login you want to delete, but don't click on it.
 4. Hit the delete key on your keyboard while that username is highlighted.
 5. You will get a dialog box asking if you want to delete the password information for that login - click YES.
 6. Password is deleted.

Deployment: 22 December 2004

- The session timer on RMLS*web* has been extended from 30 minutes to 90 minutes.
- Beginning December 28, RMLS*web* will purge old data from the system. This weekly job runs every Tuesday night and will purge In-progress listings older than 60 days; Saved searches, prospects, hot sheets, contacts and other data if the Agent ID does not exist in the member table or the member has been inactive for over 184 days; Old emails and CMA's in 'view all sent emails' older than 18 months

Deployment: 9 December 2004

Deployment: 30 September 2004

- The new HUD Word Check module will check both public and private remarks for offending words. This check will run anytime that the user chooses to save a new listing (not finish later) or make a MISC change to the remarks fields. If questionable words are found a dialog box will pop up and highlight the questionable words. The user will have to either accept or change the entries as they see fit. When the member clicks on “Continue”, for indemnification purposes, we will record the date and time that the user accepts the offending word(s).
- A new link, “Forgot Private ID?”, has been added to the Login Page. This feature allows a member to have their private id emailed to them at the email address saved under Toolkit - User Preferences - Roster/Default

RMLS*web* E-mail. If a member chooses to have their private id emailed, the next time they log onto RMLS*web* they will be prompted to re-accept Terms of Service and create a NEW PRIVATE ID for security purposes.
