

RMLS™ Future Enhancements

This document lists upcoming enhancements to RMLS™ systems. Most planned enhancements are originated by our subscribers through RMLSweb's Questions/Comments feature. To be as fair as possible, the Enhancement Committee reviews all requests against the following criteria:

- Our current list of projects approved by the Board of Directors
- The quantity of similar requests from other subscribers
- The level of effort required to resolve the request listing statuses

A request may not appear immediately on the enhancement plan because of programming complications or a conflicting request.

| Project Name | Description | Projected Release Date |
|---------------------|--|------------------------|
| Listing Load | <ul style="list-style-type: none"> • The ability to copy a listing to a different Property Category. Start with a Residential listing and copy to Lots and Land or Multifamily. • The ability to start a new listing from the CMA module. | Spring 2019 |
| Listing Load | <ul style="list-style-type: none"> • Listing view count's for off-market properties will show the last 60 days of view counts. | Summer 2019 |
| Search Improvements | <ul style="list-style-type: none"> • Add the ability to filter results in the Prospects Module based on amount of price change, mimicking the ability found in the Hotsheet Module. • Email notification will now be sent both at 7 days and 3 days before a prospecting profile expires. • If a broker changes the map location of a listing this will now generate a new prospecting email to your client. • The ability to create a prospecting profile from advanced search. | Summer 2019 |
| Statistical Search | <ul style="list-style-type: none"> • Add the ability to use maps along with map layers (ex: school districts, neighborhoods, subdivisions) on Market Trends and Market Stats. | Fall 2019 |
| Report Enhancements | <ul style="list-style-type: none"> • Add the ability to customize the fields you see in Hotsheet Search Results. • Customize the subject line for emails you send manually from RMLSweb • Add the ability to select subscriber and client reports from The Open House/Broker Tour module. • Add the ability to set default of listing detailed view to "Agent Unabbreviated" | Fall 2019 |

| | | |
|------------------|--|-------------|
| | <ul style="list-style-type: none"> • Allow agent reports to be emailed to other active RMLS™ agents (HB, BR, AA, AG, AP) • Add the ability to print search results with the search criteria included at the top of the page. • Add the ability to re-sort the order of status groupings on search results page so cancelled and expired listing appear last. • Client Reports will now be available in Spanish | |
| RMLS™ Mobile App | <ul style="list-style-type: none"> • Ability to edit status, price, and expiration date in the RMLS™ Mobile App. • Add OREF integration to RMLS™ Mobile similar functionality to the OREF button on the bottom of an Agent Full Report. | Winter 2019 |
